*Specials for Search & Rescue Teams*

**RESCUE SACKS**.....25-26  
*Patient care & helicopter lifting*

**Pumps, Bags & Accessories**.....27

## DEVELOPED AND MANUFACTURED IN AUSTRIA

Kohlbrat & Bunz products are developed and manufactured 900 meters above sea level in the middle of the Austrian Alps in its own facilities by its experienced and meticulously working staff.

People living in the Alps know very well that products used under the extreme conditions of alpine rescue have to work perfectly. To meet these rigorous demands our products are developed in close cooperation with the mountain rescue teams and other demanding emergency services.

This cooperation has brought about a selection of the best materials and optimal product design leading to products of outstanding performance and quality. To insure the best possible quality Kohlbrat & Bunz work in accordance with EN ISO 9001 & EN ISO 13485.

## WORLDWIDE IN USE

We are very proud of the confidence shown to us and our products by many well-known and demanding emergency services worldwide and are happy to show some examples of their beautiful logos that they have asked us to put on the RedVac products we have made for them.

# The RedVac System

unique solutions for PATIENT SAFETY, PERFECT HYGIENE & EASE OF USE

## The RedVac CLICK-System

for attachment of straps and handles

The unique CLICK-System makes removal of straps and handles for repositioning, replacement, cleaning and disinfection very easy!

## Optional attachment systems for straps and handles

**Cleats**

**Hook & Loop**

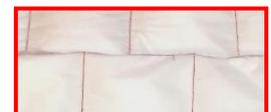

**Red Stripes**

## The RedVac Multi-Chamber-Systems

provides unmatched EASE OF USE

The Multi-Chamber-System keeps the internal beads evenly distributed eliminating the need for difficult and time consuming manual spreading of the beads enabling fast, safe and easy application in all situations.

## Robust & durable exterior Material

To achieve outstanding durability, abrasion resistance, tightness, easy cleaning and disinfection, comfort and safety for the patient special materials were chosen. It makes it possible to use the RedVac products in a wide temperature range, from -40°C up to +80°C. Our medical TPU cover material has no softening agents or plasticizers, therefore has the same material properties over its entire service life. The material is biocompatible and does not cause any allergic reactions

### **Restraint Straps, made of polypropylene (PP) or wipe-clean TPU**

Colour coded patient restraint straps, adjustable from both sides, easy to clean, reposition or replace.

### **Vacuum Valve, screw-on, replaceable**

The valve is robust and easy to use, even when wearing gloves. It closes automatically when suction stops preventing loss of vacuum if slipping with the pump. Comes with suitable adapter for most vacuum pumps.

### **Vacuum Valve, welded-on, non-replaceable**

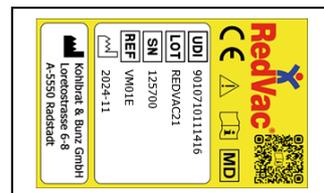

The valve is robust and easy to use, even when wearing gloves. It closes automatically when suction stops preventing loss of vacuum if slipping with the pump.

### **Label System**

An indestructible label with individual serial number and date of manufacture is welded onto every product.

Optional labels with property indicator and distributor logo are available.

### **X-ray, CT and MRI compatible**

No metals or materials are used that could lead to interference.

### **Latex free**

RedVac products or their packaging do not contain natural rubber or dry natural rubber latex as a building material

### **CE**

All RedVac products are CE marked and conform with the European directive 2017/745 (MDR) for medical devices

### **Quality System certified by**

High product requirements and 100% quality inspection before dispatch.

Our Products are manufactured exclusively in Austria
